

# CREATIVE PARADIGM-2022

The Creative Paradigm was conducted on July 23rd where students were given opportunity to bestir ones imagination and bring forth ideas to present them in the form of models, charts and activities. They were given the prospect of learning and exploring the known & unknown aspects of the given topics at deeper level. It was an interactive event for students with quick learning opportunities & interactive approach in propagating knowledge. Undertaking project work on different topics helped the students to strengthen their competence to think and analyse critically. The topics were curriculum- based on the ideas of educating students in an interdisciplinary and applied approach.

In accordance with theme 'Valuing Nature', grade IX students worked together on numerous topics like Man- made disasters, Natural Disasters, Agriculture, Artificial Intelligence, Forgotten Seeds and Unsung Heroes. Grade VIII students presented topics on Food supply and chain which included topics Animal and crop farms, Karnataka crops and industries, Food processing industries, Logistics, Dairy Farm etc., Grade VII students presented topics on Resources and conservation which included types of resources, conserving earth, water and wind conservation and future of conservation.

Few glimpses of session-

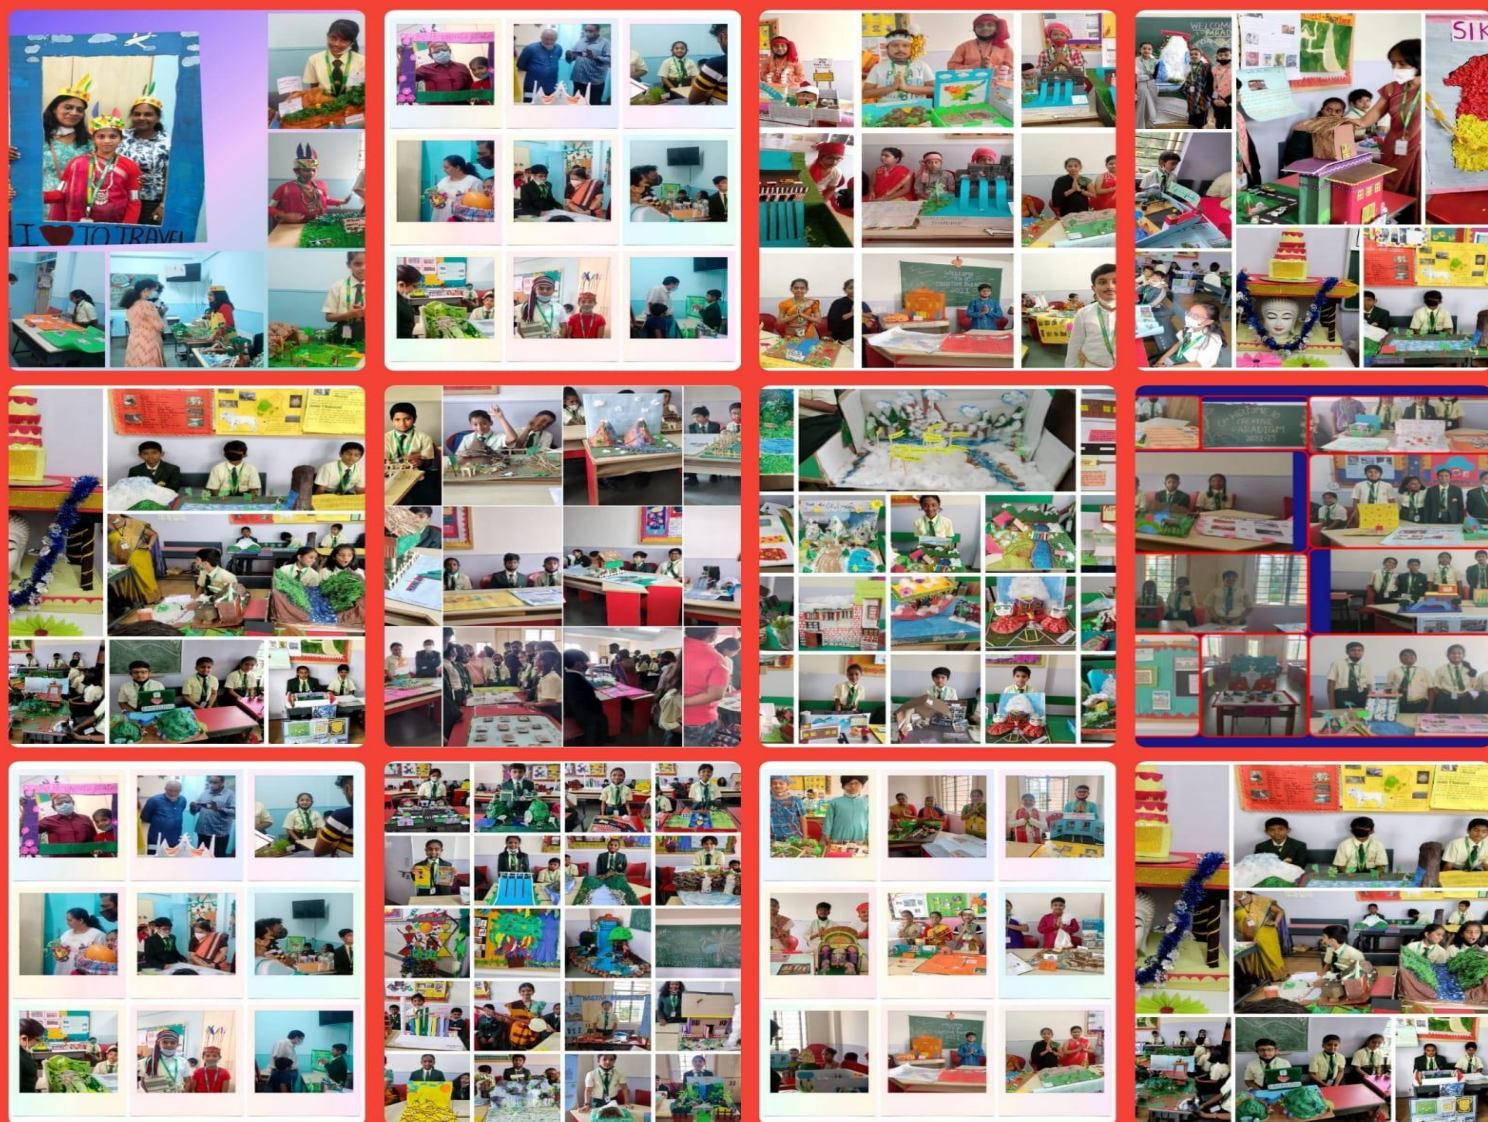

Students of grade IV, V, VI under Ek Bharat Shreshtha Bharat activity presented various states. They welcomed various cultures, food, famous personalities, historical monuments and many more. Few glimpses are below-

## Grade III-V
