

Chain Community Service Programme

“Lead Kindly Light” being the prayer and vision of AECS institutions, we always stress on the importance of compassion and giving. The school indeed plays a central role in awakening the spirit of service in the youth of the country. By doing so, it not only serves to improve the condition of those who need help but also creates a sense of initiative on the part of its students that will serve them well in all areas of life. AECS Group of Institutions has planned commitment for the community Service Programme throughout the year. On 27th January 2014, teams of students from AECS Nursing and AECS Magnolia Maaruti Public School joined their hands to provide mobile library for those children who are actually in need.

We have identified this time Government Higher Primary School, Koppa, Anekal Tq, Bangalore Urban District. Library books were provided to the students of Government school. Books were distributed keeping in mind the age groups and interests of the students. Our students namely Mithun, Suraj, Namitha of Grade: 7 and Gautham, K Sandhya, Sumedha, Sourabh, Chetan, Shama and Manoranjan of grade VIII created a joyous and fun atmosphere by conducting mind games and recreation games.

AECS Dental college- doctors and students were part of this programme and they brought mobile dental check-up vehicle. Our dental students assembled students of Govt school students and brought awareness to keep their dental hygiene by speech demonstration. They proceeded with free dental check-up and distributed health check-up card for all the students.
